OBJECTIVE

Motivated and detail-oriented Full Stack Developer seeking an opportunity to leverage my expertise in React.js, Node.js, Express.js, and MongoDB to design and develop efficient, scalable, and user-focused web applications while gaining valuable hands-on experience in real-world projects

EXPERIENCE

Block Coders Pvt. Ltd.

Dec 2025 - Jul 2026

MERN Stack Trainee

Developed and maintained full-stack web applications using React, Node.js, and MongoDB following MVC architecture. Implemented secure JWT-based authentication, role-based access control, and responsive user interfaces while collaborating in Agile teams using Git/GitHub to ensure code quality and efficient project delivery.

EDUCATION

St Mary's School, Sundernagar

10th (CBSE) | 70%

DAV Public School, Sundernagar

12th | 71%

Chitkara University, Rajpura (Punjab)

B.Tech (CSE) | 7.2 CGPA

SKILLS

Frontend: React.js

Backend: Node.js, Express.js

Database: MongoDB (Mongoose ODM)

Version Control: Git, GitHub

Testing Tools: Postman

PROJECTS

Dentist Clinic Website

- Built a full-stack Dentist Clinic Website using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented appointment booking, services listing, and contact management with a responsive, accessibility-focused UI.
- Designed RESTful APIs and MongoDB schemas to handle patient appointments and clinic data efficiently.
- Built reusable React components and integrated backend APIs for real-time booking updates.

HR Management System

- Developed a comprehensive HR Management System using React, TypeScript, Node.js, Express, Prisma, and SQLite.
- Implemented role-based access control for HR Admins, Managers, and Employees.
- Integrated employee management, attendance tracking, leave management, payroll, salary structures, and payslip generation.
- Added team management, reports, notifications, audit logs, statutory details, and organization settings.
- Designed a responsive and user-friendly interface with secure JWT authentication and real-time form validations.
